## Scuba Skills Update – Sunday, June 11, 2023 – 9:00am

### Who Should Take This Class?

Certified open water divers who have not been in the water for 6 months or longer or who would simply like to work with an instructor to practice and review basic open water skills. This is a perfect program for divers who understand the value of being well prepared and comfortable on their next dive outing or trip around the world.

### Class Description:

A Scuba Skills Update provides you with the opportunity to review and practice necessary scuba skills that you learned in your original Open Water program under the guidance of an SSI Dive Professional. A Scuba Skills Update is sometimes required to continue your dive training after a long period of time away from the sport.

### Prerequisite:

You must be at least 10 years old.

### Where:

The classroom session and training dives can be completed at Mermet Springs. This program can also be completed in an indoor pool during cold or inclement weather.

### What Do I Need to Bring:

Bring your current, completed medical. **If you have any 'yes' answers, you must have a physician sign-off that you are cleared to dive.** Rental equipment and air fills are not included for this specialty-training course.

### Training Materials:

Upon making a deposit for this program, you will have access to your digital training program on your MYSSI App or when you log in at [www.divessi.com](http://www.divessi.com). There will be a multiple-choice exam at the end of the classroom portion. **You must pass the final exam with a score of 80% or higher.**

### Training Dives:

This is a pool/confined water specialty. After successful completion of the course, 1-2 guided dives may be added at no additional charge.
